

# GeoPDF Toolbar System Requirements

The following hardware and software requirements must be in place before installing the GeoPDF Toolbar:

## Hardware

- ➔ 512k RAM or greater recommended
- ➔ 14.5 MB of hard disk space for the GeoPDF Toolbar installer as well as installed components
- 🚩 The Adobe Acrobat or Reader software has additional hard disk requirements.

## Software

- ➔ Adobe Acrobat or Reader version 6.x or 7.x or 8.x
- 🚩 Adobe Acrobat 7.x and 8.x Professional allows the creator to enable the file for commenting and analysis in Adobe Reader. This can be done via the Comments menu > Enable for Commenting Analysis in Adobe Reader... option.
- 🚩 If you do not currently own Adobe Reader, download it for free from the following link:
